

MATLAB®  
& SIMULINK®

# Building MATLAB Applications

Wednesday, 24th November 2021 | 15:00 (CET)

Webex event

Please join MathWorks at this upcoming seminar. You will learn about the use of MATLAB to create interactive applications for Data Analysis.

## Who Should Attend

This webinar has been prepared for the Cycle of Meetings 2021 and it is aimed students and lecturers willing to explore MATLAB capabilities for Data Analysis with a focus on the design and implementation of end-user applications.

## What You'll Learn

- Using MATLAB as a Data Analysis tool
- Use App Designer to create professional apps
- Share your apps in the MATLAB cloud
- Create standalone apps with MATLAB Compiler™.
